KAMPALA,

March 18, 2022

DECISIONS TAKEN BY CABINET ON 14/03/ 2022

At the sitting of Cabinet at State House, Entebbe chaired by H.E the President , the following considerations were made.

1. It was agreed that the government of Uganda shall construct an Industrial Park in each of the geographical zones in Uganda. The required infrastructure shall also be provided such as roads, electricity, internet, water and sewerage and other utilities.
2. It was also noted that the Ministry of Education and Sports is carrying out a study on whether Ugandan parents are willing and able to pay fees in UPE as USE schools. The findings of the study, expected in June this year will inform government on whether to allow further payment of fees or not.
3. Cabinet further directed that no more administrative units should be created between now and the end of this term in 2025/2026

Dr. Chris Baryomunsi, MP

MINISTER FOR ICT AND NATIONAL GUIDANCE
