PRESS STATEMENT

FINANCIAL SANCTIONS AGAINST MAJ GEN ABEL KANDIHO THE CHIEF OF MILITARY INTELLIGENCE – UPDF

We have been officially notified about the unilateral financial sanctions against Maj Gen Abel Kandiho the Chief of Military Intelligence - UPDF by the United States of America (USA) government.

As a country and UPDF in particular, a reputable government institution, we are disappointed that such a decision could be made by a country we consider friendly, a partner and a great ally, without due process and in total disregard of the principle of "**fair hearing**", coupled with failure to make the necessary consultations.

Going forward, we will be seeking clarification from the United States of America government/authorities to be able to determine way forward.
